</a>
```

HTML

The tag is

```
<a href="----->
```

Type where you want to go
Eg) `this_is_not_me.html`

```
</a>
```

HTML

```
<html>
```

```
<head>
```

```
<title>
```

Title for your web page eg) This is me

```
</title>
```

```
</head>
```

```
<body bgcolor=ffffff text=ffffcc>
```

Type the contents of your page

```

```

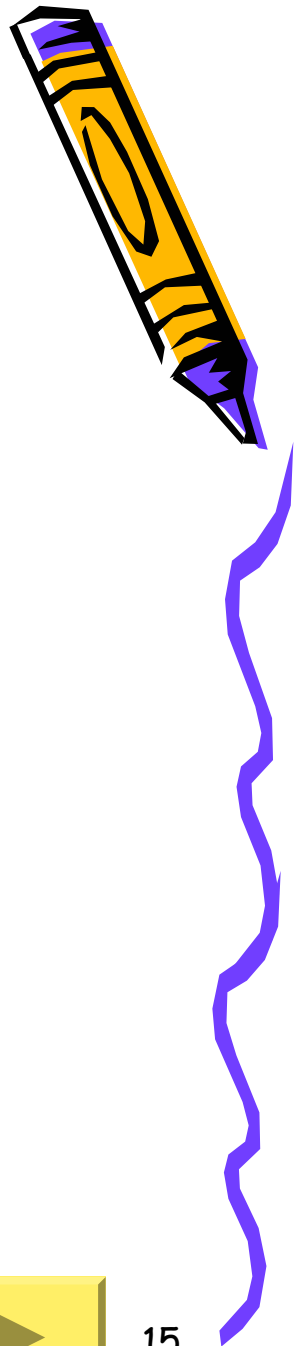

```
<a href="this_is_not_me.html">
```

Go next

```
</a>
```

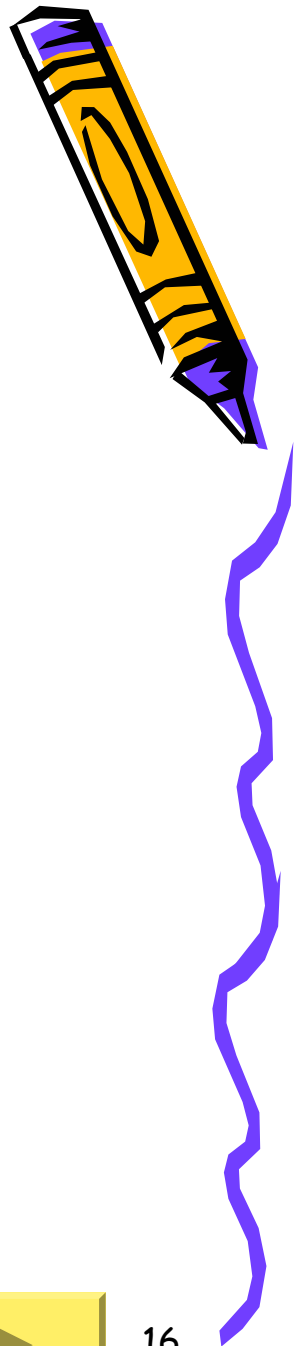

```
</body>
```

```
</html>
```

HTML

How to name the file?

HTML

Index.html

Page2.html

```
<html>
```

```
<head>
```

```
<title>
```

Title for your web page eg) This is me

```
</title>
```

```
</head>
```

```
<body bgcolor=ffffff text=ffffcc>
```

Type the contents of your page

```

```

```
<a href="_____ .html">
```

Go next

```
</a>
```

what you must type here....?

```
</body>
```

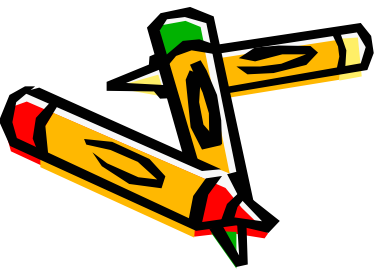

```
</html>
```

Check 14

HTML

Yes!
It's index

HTML

```
<html>
```

```
<head>
```

```
<title>
```

Title for your web page eg) This is me

```
</title>
```

```
</head>
```

```
<body bgcolor=ffffff text=ffffcc>
```

Type the contents of your page

```

```

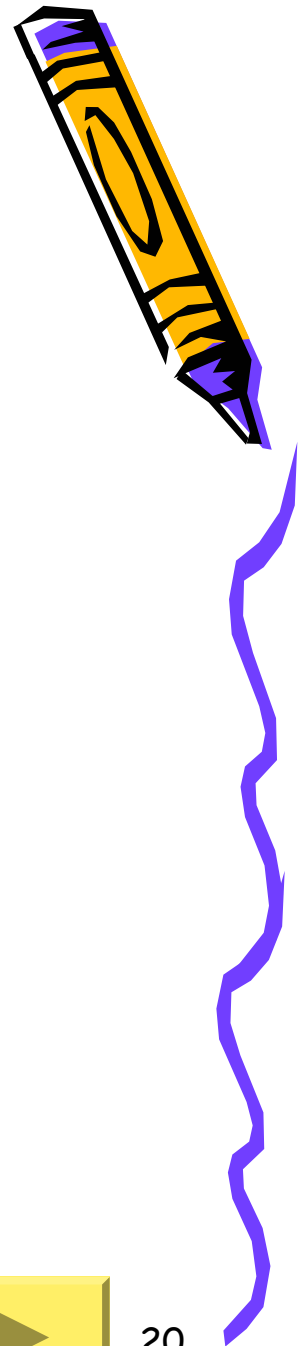

```
<a href="index.html">
```

Go next

```
</a>
```

```
</body>
```

```
</html>
```

Congratulations!
