Text

5. **Save all your work into your folder insides File Server**

Copy your today's folder then open My Computer – click File Server – click your folder then Paste

MAGIC WAND : use for select colours

Eg) good to use an image has very different colours and want to select colour parts then you can change the colour

Polygonal Lasso : it can select any shape

Eg) can put different layer

Select some object then copy then paste it onto a different layer or image
